Re: Compliance with U.S. Green Building Council's (USGBC) LEED Program
 (Leadership in Energy and Environmental Design)
 Compliance with South Coast Air Quality Management District (SCAQMD)
 Rules 1113 and 1168, Oct. 6, 2017

To Whom it May Concern:

Metzger/McGuire Semi-Rigid Concrete Joint Fillers and Concrete Repair Products are all compliant with the USGBC LEED standards limiting VOC's. The chart below shows our products and their VOC content and compliance status:

| Product | VOCg/L | LEED Compliant | LEED v4 Compliant |
|--|--------|----------------|-------------------|
| Concrete Floor Joint Fillers | | | |
| MM-80 Heavy Duty, Semi-Rigid Epoxy | 0 | YES - IEQ 4.1 | Not tested |
| MM-80P Heavy Duty, Semi-Rigid Epoxy | 0 | YES - IEQ 4.1 | YES |
| Edge-Pro 80 Moisture Tolerant Semi-Rigid Polyurea | 0 | YES - IEQ 4.1 | YES |
| Edge-Pro 90 Heavy Duty, Semi-Rigid Polyurea | 0 | YES - IEQ 4.1 | YES |
| Spal-Pro RS 88 Rapid Setting, Semi-Rigid Polyurea | 0 | YES - IEQ 4.1 | YES |
| Spal-Pro RSF Rapid Setting, Semi-Rigid Polyurea | 0 | YES - IEQ 4.1 | Not tested |
| Spal-Pro RS 65 Rapid Setting, Semi-Rigid Polyurea | 0 | YES - IEQ 4.1 | Not tested |
| Spal-Pro 2000 Rapid Setting, Semi-Rigid Polyurea | 0 | YES - IEQ 4.1 | Not tested |
| Concrete Repair Products | | | |
| Armor-Hard Structural Epoxy | 0 | YES - IEQ 4.2 | Not tested |
| Armor-Hard Extreme Structural Epoxy | 0 | YES - IEQ 4.2 | Not tested |
| Armor-Hard HDR Structural Epoxy Overlay System | 0 | YES - IEQ 4.2 | Not tested |
| PATCH-1 Heavy Duty Epoxy Repair Resin | 0 | YES - IEQ 4.2 | Not tested |
| Rapid Refloor Low Viscosity Structural Polyurea | 0 | YES - IEQ 4.2 | YES |
| Rapid Refloor XP Low Viscosity Structural Polyurea | 0 | YES - IEQ 4.2 | Not tested |
| Rapid Refloor Pit Grout Polyurea Grouting System | 0 | YES - IEQ 4.2 | YES |
| Spal-Pro Stabilizer Injectible Underslab Polyurea | 0 | YES - IEQ 4.2 | Not tested |
| SRG (Surface Refinement Grout) | 44 | YES - IEQ 4.2 | YES |

None of the above referenced products exceed the VOC safety guidelines established by the U.S. EPA and all are fully compliant with the criteria set forth to qualify for the **IEQ4.1 Low-emitting adhesives, sealants or IEQ4.2 Low-Emitting Materials – Paints and Coatings** credits allowed by the U.S. Green Building Council's LEED (Leadership in Energy and Environmental Design) program. These products also do not exceed limits required for compliance with the South Coast Air Quality Management District (SCAQMD) Rules 1113 and 1168, Oct. 6, 2017.

Please contact us should you have further questions regarding this issue.

Cordially,

Scott Metzger
